Claims 1,7-8,14-15,21 are allowed.

Allowable Subject Matter

Independent claim 1 is allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts which teach "...a collection of slabs being a pile, each pile having a maximum amount of allowable space that can be allocated thereto, wherein if an application reduces the maximum amount of allowable memory space of a pile and the current amount of memory space exceeds the reduced maximum, at least one of the slabs in the pile is targeted to be squeezed empty;" and "... in any space in the slab that becomes unused anytime thereafter, wherein precluding data from being placed in an unused space of the slab includes disclaiming the unused space; and de-allocating the slab when the slab becomes empty".

Art Unit: 2188

Independent claims 8 and 15 include the same novel features as those found in claim 1 as noted above.

The remaining dependent claims, not specifically mentioned, are allowed for the same rationale as the independent claim(s) being based from.
